Career Objective

Highly motivated and detail-oriented **Java Full Stack Developer** with a solid foundation in software development and data science. Experienced in designing and developing scalable, efficient web applications using **Java, Spring Boot, REST APIs**, and front-end technologies. Passionate about applying **machine learning techniques** to solve real-world problems and building innovative digital solutions.

Education

GOKARAJU LAILAVATHI ENGINEERING COLLEGE, HYDERABAD Oct 2022 – Jun 2025
B.E. in Computer Science and Engineering, 8.5 cgpa

ANURAG ENGINEERING COLLEGE, KODAD Jun 2019 – Apr 2022
Diploma in Electronics and Communication Engineering, 8.0 cgpa

VIGNAN GROUP OF INSTITUTIONS, HUZURNAGAR Jun 2018 – Mar2019
SSC Board, 9.2 cgpa

Technical Skills

Languages: Java, JavaScript

Frameworks & Technologies: Spring Boot, Spring MVC, Bootstrap, Machine Learning, Deep Learning, HTML, CSS

Tools & Platforms: Android Studio, Git, Maven, SonarQube, Windows, Ubuntu, VS Code

Databases: MySQL, MongoDB

Coursework Undergraduate: Data Structures and Algorithms, Object Oriented Programming(OOP), Database Management System(DBMS), Operating System, SDLC

Projects

Employee Management System (Graduation Research Project) Oct 2023 – Mar 2024

- Designed a robust system to manage employee data and avoid redundancy or loss
- Built RESTful services for CRUD operations with Spring Boot and integrated front end interactions with HTML, CSS
- For project details refer to github repository

Anomaly Detection in Real-world Surveillance Videos (Graduation Research Project) Oct 2024 – Jun 2025

- Developed a video analysis system to detect activities like **fights, accidents, robberies**
- Applied deep learning and computer vision to identify real-time anomalies
- Utilized PyTorch and pre-processing with LAV Filters for optimal accuracy

Internship Experience

Java Full Stack Intern – Cognifyz Technologies Nov 2024 – Dec 2024

- Created a **Random Password Generator** with customizable complexity (alphanumeric, symbols)
- Engineered a **Multithreaded Java Application**, handling 50 concurrent processes without performance degradation, as the sole intern developer on the project, which reduced server CPU utilization by 15%.

Achievements and Certifications

- Solved **1000+** problems on codechef
- Certified in **VEDAIT** completion of **Java Full Stack** Training
- **Responsive Web Development** – FreeCodeCamp, **Cybersecurity** – Forage, **AWS S3 Basics** – Coursera
